RESEARCH PROFILE

Research focuses on the systematics, phylogeography and conservation biology of African mammals, with collaborative studies of mammals in China and Southeast Asia. Methods combine field-collected specimens with phylogenomic and morphometric analysis of species limits and diversification history, and macroecological analysis of how mammal diversity varies with elevation, ecoregion, climate and human pressure. Fieldwork is concentrated in Kenya, in joint surveys of the National Museums of Kenya and the Kunming Institute of Zoology (2015–2019).

PROFESSIONAL APPOINTMENTS

Jul 2022 – Present

Special Research Assistant
Kunming Institute of Zoology, Chinese Academy of Sciences · Kunming, China

- Conduct research on the systematics, phylogeography and conservation biology of African mammals, and collaborate on studies of Chinese and Southeast Asian taxa.
- Analyse genomic and ecological data on species richness, phylogenetic and functional diversity and their associations with climatic and anthropogenic variables; study evolutionary history, taxonomy and morphological variation along elevational and ecoregional gradients.
- Served as principal investigator on NSFC grant 32350410430 (2024).
- Supervise graduate students in research design, data analysis and manuscript preparation.

Aug 2013 – Apr 2015

Research Assistant
National Museums of Kenya · Nairobi, Kenya

- Conducted field research on small mammals and their habitats, including habitat suitability analysis, survey-site selection and trapping design.
- Handled specimens in the field and laboratory and identified taxa from morphological and ecological characters.
- Contributed to monitoring protocols for mammals and habitats in Kenya; managed data digitisation and the reporting of project activities.

Apr – Aug 2012

Undergraduate Industrial Attachment
Nairobi City Water and Sewerage Company · Nairobi, Kenya

Environmental monitoring and compliance, wastewater quality assessment, and review of Environmental Impact Assessment and Occupational Safety and Health Audit reports.

EDUCATION

2018 – 2022

PhD in Zoology
University of Chinese Academy of Sciences · Beijing, China

Research at the Kunming Institute of Zoology, CAS, Kunming. Dissertation on the systematics, phylogeography and macroecology of African small mammals. Advisor: Prof. Jiang Xuelong.

2015 – 2018

Master of Natural Sciences
University of Chinese Academy of Sciences · Beijing, China

Research at the Kunming Institute of Zoology, CAS, Kunming. Advisor: Prof. Jiang Xuelong.

2009 – 2013

BSc in Environmental Studies
Kenyatta University · Nairobi, Kenya

FUNDING, FELLOWSHIPS & AWARDS

Research funding

Jan – Dec 2024 — **National Natural Science Foundation of China (NSFC)**
Grant No. 32350410430 · ¥240,000 (approx. US$33,300) · Principal Investigator
Genomic analysis of the *Lophuromys flavopunctatus* species group: relevancy of conservation genomics to enhancing biodiversity management and human welfare.

2019 — **IDEA WILD Grant**
Equipment for small mammal field surveys in Kenya.

Fellowships, scholarships and awards

2018 — **CAS–TWAS President's Fellowship**
Full fellowship for PhD studies, 2018–2021. Chinese Academy of Sciences / The World Academy of Sciences.

2018 — **Stipends for Junior Scientists**
Funding to attend the 92nd Annual Meeting of the German Society for Mammalian Biology, Bonn, Germany, including a visit to the Zoological Research Museum Alexander Koenig.

2017 — **Council on Africa Award — Field Museum of Natural History**
Visit to the Field Museum of Natural History, Chicago, USA, for collaborative taxonomic work.

2015 — **University of Chinese Academy of Sciences Full Scholarship**
Full scholarship for Master's studies, 2015–2018.

PUBLICATIONS

Author's name in bold. Reverse chronological, numbered from the earliest. Bibliographic details are taken from Crossref records and the author's reference library; titles are as published. Accepted articles that have no DOI yet are listed from the library alone.

PRESENTATIONS

Invited talks

7 Jul 2025 — **Community ecology of terrestrial mammals of Kenya: eco-evolutionary patterns and processes, and conservation implications**
University of Potsdam, Institute of Biochemistry and Biology · Potsdam, Germany

31 Oct 2024 — **The problem of spatial scale in small mammal diversity patterns and processes**
Masaryk University, Vertebrate Research Group, Faculty of Science · Brno, Czech Republic

Conference presentations

3–6 Jun 2024 — **Effectiveness of protected areas in Kenya based on terrestrial mammal diversity patterns: implications for conservation strategies**
Poster · 1st Joint International Scientific Conference, National Museums of Kenya · Nairobi, Kenya

27 Aug 2023 — **Untangling key abiotic predictors of terrestrial mammal diversity patterns in Kenya and the protected areas' management implications**
Oral presentation · 16th National Academic Symposium on Wildlife Ecology and Resource Conservation, Chinese Zoological Society · Yichang, Hubei, China

23 Nov 2018 — **Morphometrics of the *Lophuromys aquilus* species complex: taxonomic and biogeographic relevancy**
Oral presentation · 14th National Symposium on Wildlife Ecology and Resource Conservation, Chinese Zoological Society · Kunming, Yunnan, China

18 Sep 2018 — **Morphological variation, biogeography, and a taxonomic synopsis of the *Lophuromys aquilus* species complex**
Oral presentation · 92nd Annual Meeting of the German Society for Mammalian Biology, Museum Koenig · Bonn, Germany

FIELD RESEARCH EXPERIENCE

The five campaigns with specimen counts were joint surveys of the National Museums of Kenya (NMK) and the Kunming Institute of Zoology, CAS; together they yielded 5,974 catalogued small mammal specimens. Methods: Sherman live traps, snap traps, and pitfall –drift-fence arrays on standardised elevational transects; external and cranial measurements in the field; tissue sampling in 95% ethanol; voucher preparation and accession into the NMK mammal collection.

28 Sep – 14 Nov 2019 — **Cherang'any Hills, Mount Elgon and Mathews Range, Kenya**
854 specimens · rodents and shrews
Montane survey of three geographically isolated highlands, along elevational gradients in western and northern Kenya.

12 Aug – 14 Sep 2018 — **Mau Forests, Kakamega Forest and Yala Swamp, Kenya**
1,450 specimens · rodents and shrews
Gradient from highland forest through Guineo-Congolian lowland rainforest to wetland.

9 Jan – 5 Feb 2018 — **Loita Hills forest ecosystem, Kenya**
877 specimens · rodents and shrews
Dry montane forest isolated from other Kenyan highlands.

19 Aug – 22 Sep 2016 — **Chyulu Hills, Tsavo National Parks, Shimba Hills and Gongoni Forest, Kenya**
861 specimens · rodents, shrews and bats
East–west transect from coastal forest to interior savanna.

6 Sep – 13 Oct 2015 — **Mount Kenya (Chogoria and Sirimon transects), Kenya**
1,932 specimens · rodents and shrews
Two elevational transects, from montane forest through bamboo and moorland to alpine heath.

Jul – Aug 2015 — **Loita Forest and Kakamega Forest National Reserve, Kenya**
Forest-dependent small mammal communities in two contrasting forest types, with a team led by Prof. Julian Kerbis Peterhans (Field Museum of Natural History / Roosevelt University).

GRADUATE SUPERVISION & MENTORSHIP

MSc students at the Kunming Institute of Zoology, CAS.

2022 – 2025 — **Brian Anoto Sambaya**
Integrative phylogeography of African striped grass mice (*Lemniscomys*). First-author article: Sambaya et al. (2025), *Zoological Research: Diversity and Conservation*, 2(4), 233–249.

2019 – 2022 — **Alois Wambua Mweu**
Comparative phylogeography of specialist rodents in Kenyan forest fragments. First-author article: Mweu et al. (2024), *Life*, 14(11), 1469.

2019 – 2022 **Samson Mabeya Ouru**

PEER REVIEW & MEMBERSHIPS

Peer review	76 review records for 24 journals, 2020–2026 (ORCID, 4 October 2026). Sustainability (15); Ecology and Evolution (12); Animals (7); Land (6); Biology (4) Three each: Diversity and Distributions; Ecosphere; Global Change Biology; Global Ecology and Biogeography Two each: Birds; Diversity; Forests; Mammalian Biology; Wild One each: Biological Conservation; Conservation Science and Practice; Ecological Indicators; Geology Ecology and Landscapes; Journal of Applied Ecology; Journal of Biogeography; Journal of Threatened Taxa; Journal of Wildlife Management; Journal of Zoological Systematics & Evolutionary Research; Plant Ecology & Diversity
Societies	Association for Tropical Biology and Conservation; Ecological Society for Eastern Africa; Ecological Society of America; Society for the Study of Evolution; Society for Tropical Ecology (gtö); Society of Systematic Biologists.

SKILLS

Systematics & genomics	Integrative taxonomy; phylogenomics with ultraconserved elements (UCEs); mitochondrial and multilocus phylogenetics; species delimitation; divergence-time and demographic inference; linear and geometric morphometrics.
Macroecology & modelling	Species distribution and habitat suitability modelling; phylogenetic and functional diversity; beta-diversity decomposition; occupancy modelling; multiscale spatial analysis; protected-area effectiveness assessment.
Field & collections	Small mammal live-trapping, snap-trapping and pitfall arrays; elevational transect design; specimen preparation, curation and museum accession; tissue archiving.
Computing	R (statistical modelling, spatial analysis, reproducible workflows); bioinformatics pipelines for phylogenomic data; GIS.
Languages	English (fluent) · Swahili (fluent) · Mandarin Chinese (basic)

REFEREES

Prof. Jiang Xuelong · Principal Investigator
Kunming Institute of Zoology, Chinese Academy of Sciences · Kunming, China

Dr. Esther Kioko · Senior Research Scientist
National Museums of Kenya · Nairobi, Kenya

Dr. Julian Kerbis Peterhans · Curator
Field Museum of Natural History · Chicago, USA

Dr. Simon Musila · Senior Research Scientist & Head, Mammalogy Section
National Museums of Kenya · Nairobi, Kenya
